RE: IDPH EGrAMS – Electronic Grants Management System

---

As a strategic initiative of the Office of Performance Management at the Illinois Department of Health, an electronic grants management system has been launched, known as EGrAMS. All IDPH grants are scheduled to be accessed, applied for, and reviewed electronically.

EGrAMS is an enterprise-wide web-based scalable, configurable, business rule driven and workflow based end-to-end electronic grants system. The system provides consistent and standard user interfaces to handle the process from grant application entry to closeout. It offers a streamlined solution to configure, find, apply and manage your grant application process quickly, efficiently and accurately. The system uses a comprehensive security framework for user authentication and authorization.

In order to get familiar with the system, please utilize the EGrAMS tools below:

- Introductory video [http://intra.idph.il/NR/idph/video/052013\\_EgRAMS.wmv](http://intra.idph.il/NR/idph/video/052013_EgRAMS.wmv)
- EGrAMS announcement flyer
- Grantee Quick Start Guide
- General Quick Start Guide
- Grantee User Manual

We recommend that you register your agency and create a user profile in advance of any grant submittal at <https://idphgrants.com>. If you have questions regarding the EGrAMS system, please contact the Grants Management Unit at [DPH.GrantReview@illinois.gov](mailto:DPH.GrantReview@illinois.gov).
