

# Southern Illinois Regional EMS System

## B-19 INVENTORY OF PROVIDERS VEHICLE'S EQUIPMENT, MEDICATIONS AND SUPPLIES

- Each provider vehicle will be maintained with appropriate stock levels for patient care and to ensure sterility of materials:
  - Supplies are to be replaced after each use.
  - Routine daily checks are to be performed on each unit.
    - Emergency vehicle/Ambulance checks are to be documented.
  - A thorough inventory of each vehicle will be done monthly checking:
    - Expiration dates on medications
    - Expiration dates on supplies
  - All deficiencies should be immediately replenished.
  - All dated items should be removed prior to the expiration date.
  - All equipment/monitors shall be inspected/checked regularly according to the manufacturer recommendations.
  
- Provider agencies will maintain written documentation of the following and provide to the Resource Hospital upon request:
  - Emergency vehicle/ambulance inventories
  - Emergency vehicle/ambulance checks
  - Equipment inspection/checks
