

Southern Illinois Regional EMS System

B-22 AMBULANCE PERSONNEL REQUIREMENTS

- Each ambulance shall be staffed with a minimum of 2 EMTs, Pre-hospital RNs, or physicians on all emergency calls.
- Each Basic Life Support ambulance will be staffed with a minimum of two (2) Illinois licensed and EMS System approved Emergency Medical Technicians.
 - One of the 2 EMTs must be licensed at or above the minimum level of EMT-Basic.
- Each Intermediate Life Support ambulance will be staffed with a minimum of two (2) Illinois licensed and EMS System approved Emergency Medical Technicians.
 - One of the 2 EMTs must be licensed at or above the minimum level of EMT-Intermediate.
- Each Advanced Life Support ambulance will be staffed with a minimum of two (2) Illinois licensed and EMS System approved Emergency Medical Technicians.
 - One of the 2 EMTs must be licensed at or above the minimum level of EMT-Paramedic.
- Each ambulance provider that operates an emergency transport vehicle shall ensure that the agency providing emergency care at the scene and enroute to a hospital meets these requirements.

EMS Licensing Hierarchy:

- Emergency Physician
- EMT-Paramedic / Pre-Hospital RN
- EMT-Intermediate
- EMT-Basic
