

# Southern Illinois Regional EMS System

## G-6 EMS SYSTEM EDUCATION AND INFORMATION

### EMS System Manual:

- Each ambulance provider service and hospital functioning within the EMS System will be provided with an EMS System manual.
- Each agency is responsible to maintain the EMS System manual in a location that is accessible to all personnel 24 hours a day.

### System Policy and Protocol Changes:

- Each provider agency will receive notification and copies of policy and procedure changes for the EMS System manual.
- System in-services and training will be conducted for all providers as needed on new policies and procedures.
- The Associate Hospital will conduct in-service training to EMS personnel as directed by the Resource Hospital.

### EMS System Activities:

- EMS System activities will be posted in the form of a memo, email, System website or System newsletter.
- Each provider agency will receive a list of System activities to be accessible to all personnel 24 hours a day.

### EMS Resource Material:

- EMS Resource Material can be located at the EMS Office of the Resource Hospital.
- EMS Personnel may utilize the Education Library of the Resource Hospital for information M-F during day hours. EMS personnel wanting to use the Hospital Library will require approval by the EMS office.

### Region V EMS Plan:

- Information and updates regarding the Regional Plan will be provided to System participants through in-service training, memo, email, System website, or System Newsletter.
- A copy of the Regional Plan is included in the System Manual
